Hong Kong

2013, 150th Anniv. of the International Committee of the Red Cross

150th Anniversary of the Red Cross:

The year 2013 marked the 150 years of humanitarian action by the Red Cross across the globe. The year is not just to celebrate but to relearn and re-invent ourselves as an organization as we face new and emerging challenges in a wide and diverse humanitarian landscape especially in relation to our ability to access populations with humanitarian needs. The constantly changing means and methods of warfare warrant that the International humanitarian Law (IHL) initiative too is constantly strengthened.
