

## Red Cross

Jean-Nicolas Corvisart-Desmarets (15 Feb 1755 – 18 Sept 1812) was a French Physician who gained reputation as an expert in cardiology. Corvisart resurrected the method of percussion as a diagnostic tool, and began to perfect the technique. He emphasized the study of symptoms and examined postmortem evidence as well. Corvisart became the primary physician of Napoleon Bonaparte since 1804, and would continue to attend to until Bonaparte's exile to St. Helena Island, till October 1815.

France

12 December 1964. Red Cross Fund. Jean Nicolas Corvisart (1755-1821)

1964 Red Cross Fund. Dominique Larrey (1766 – 1842) ~ was a French surgeon and military doctor, who distinguished himself in the French Revolutionary Wars and the Napoleon Wars. An important innovator in battlefield medicine and Triage, he is often considered the first modern military surgeon.
